ONLINE COURSE

INTELLECTUAL PROPERTY
MANAGEMENT BASICS

SARIMA

14-15 May, 2024

This introductory-level course will provide an overview of the management of intellectual property (IP), with an emphasis on issues and practices relevant to public research institutions. The course will cover the invention disclosure process, different types of IP rights and how to obtain protection for them, inventor/researcher interaction, the Intellectual Property Rights from Publicly Financed R&D Acts, IP ownership issues and the treatment of IP in and arising from R&D contracts and collaborations.

Who should attend:

- Early career IP managers and tech transfer practitioners.
- IP administrators.
- Research managers and research administrators seeking insight into IP-related matters.
- Those aspiring to a career in IP management and tech transfer.
- Inventors from public research institutions seeking greater understanding of how their IP is managed on their behalf.
